

WHAT THE RAILROAD MEN DEMAND OF THE S. P. COMPANY

WANT AN INCREASE
OF TWENTY PER CENT.

West Oakland Men Say That Thirty
Thousand Workers on the S. P. Are
Interested in the New Deal.

According to the interviews obtained today by a TRIBUNE reporter with the heads of the railroad unions and the union members, there will be a demand made upon the Southern Pacific within the next thirty days for increased wages which will effect upward of thirty thousand of its employees.

On the men and union officials are loath to speak of their plans and purposes. They say that a premature publication of their demands and the methods of procedure may defeat the purpose they have in view.

For that reason, they would rather not talk, but when pressed to either confirm or deny the published statements that a concerted demand was being made, not only upon the Southern Pacific Company, but upon twenty-two other railroads west of Chicago for increased wages, it was admitted that such was the case.

UNION MEMBERSHIP.

During the last six months the membership of one union organization alone has increased over one hundred per cent. That organization is the United Brotherhood of Railway Employees. Six months ago there were only 5,000 members of that organization in the employ of the Southern Pacific system. Today there are over 16,000 members. This membership does not include the thousands of railroad men employed on the twenty-two other roads, which are involved in the present movement.

In Sacramento the U. B. E. has a membership of 500. San Francisco has 1,000 and Oakland 250. Each of the seven divisions is well represented in the union.

The United Brotherhood does not include all of the organization. The engineers, conductors, brakemen, switchmen, firemen, boiler-makers, carmen, machinists and bridgemen all have separate organizations, but all are eligible to membership in the Brotherhood. It is estimated that before the first

of the year that on the Southern Pacific system alone there will be 25,000 members.

IN CALIFORNIA.

In the State of California there are 14,000 employees of the various roads who belong to unions. It is said that these men are standing with each other, as well as by the organizations in the Eastern States.

All of the 14,000 men in California either have demanded or will demand increased wages of the Southern Pacific Company.

CAUSE OF DEMANDS.

The cause of the demands being made, briefly stated, is the increased cost of living. The men claim that they are paying thirty to forty per cent more for house rent and the necessities of life. Their wages, they say, have not been increased proportionately and that it is harder to support a family now than it was four years ago.

They also recite that all the railroads are doing from one-fourth to one-third more business now than formerly and that their profits are correspondingly larger.

The third reason assigned by the men for wanting better wages is that owing to the heavier equipment in use by nearly all the railroads the train crews and all employees connected with this department are compelled to do more work than formerly.

To make good their assertions that the cost of living is higher and that the railroads are making more money than ever before the Executive Committee appointed over a year ago have compiled exhaustive statistics. The cost of food, shoes, house rent and other necessities for a period of six years are tabulated for the benefit of the heads of the railroads.

COAL MINES ARE OPENED AND
STRIKERS GO BACK TO WORK

WILKESBARRE, Pa., Oct. 23.—Reports from the entire anthracite region show that about sixty-seven per cent of the mines are in operation today. The collieries in the Lackawanna region are in better shape for working than those in any other part of the region. The collieries in the Wyoming region with small exceptions are in good shape being free from gas and water, but the large mines are still hampered by water. The same condition of affairs exists in the Lehigh region.

In the Schuylkill region the large mines are reported to be in better condition for work than was expected. All the mines in operation were short in their normal output today, but it is expected that by tomorrow almost the full output will be reached. After such a long spell of idleness the miners and laborers are "soft," and not capable of doing as hard a day's work as when they were "seasoned."

Reports are coming in from all over the mining region that many engineers, firemen, pumpmen, carpenters and laborers have failed to get their places back. The old employees are faring better with the individual companies than with the large companies. A delegation of carpenters, one of the employees from many collieries in the Wyoming region, called at President Mitchell's headquarters at noon and laid their grievances before him. They said miners and laborers had no trouble in getting work, but other employees holding good paying positions before they went on strike, generally found their places filled with other men and the mine superintendents said there would be no change for the present. Mr. Mitchell advised his callers to be patient and await developments the next few days.

ONLY TWO OPEN.

HAZELTON, Pa., Oct. 23.—Only two of the twenty-eight collieries in the Hazelton district resumed operations today. Those operating are the Hazel mines, breaker of the Lehigh Valley company, and the Upper Lehigh mine of the Upper Lehigh Coal Company. The Lehigh company expects later in the day to start up its Yorktown and Hazelton shaft mines with about half the usual force of men. Because of high water or other conditions, it will probably be a week before the others start, though some are sure to resume before the end of the week.

The collieries of G. B. Markle and Company, at Jeddo Highlands, Oakdale and Ebervale are in shape for resumption, but only a small number of men applied for their places and gave their verbal assent to abide by the decision of the arbitration commission, as required by a notice posted yesterday. John Markle announced that as soon as a sufficient number of men comply with the notice, work will be resumed.

None of the seven collieries of Cox Brothers and Company resumed because the foremen asked the men to sign an agreement not to interfere with non-union men, under penalty of discharge. The men had been instructed by the union leaders not to sign agreements and all returned home. The Derringer colliery of Cox Brothers is on fire and the firemen have been sent there to get it under control. The fire originated, they claim, through the carelessness of a workman employed in readiness for resumption at the Cranberry and Crystal Ridge collieries of A. Pardee and Company but as the men reported for work they were asked to sign an agreement similar to that proposed by Cox Brothers and Company. This they refused to do and the entire unit force returned home.

At Silver Brook, the mine workers refused to return to work because it is alleged the company will not take back twenty-seven of the former employees.

Troops were stationed at or near most of the collieries this morning, but no trouble of any kind occurred.

BIDS FOR THE NEW DAM.

City Engineer Turner has finished computing the figures in the bids submitted at the meeting of the City Council for the improvement of the Twelfth street dam. The bid of the Hutchinson-Ransome Company is the lowest and is well within the estimate made by the City Engineer. The total amounts of the bids are as follows:

Hutchinson-Ransome Company, \$35,845.84; E. B. & A. L. Stone, \$41,572.50; Oakland Paving Company, \$46,776.95; Clark & Henry, \$44,725.23; Piedmont Paving Company, \$46,173.90; Alfred W. Burrell, \$49,337.14; Lindgren Hicks & Company, \$53,035.88; and Healy Tibbitts, \$53,522.50.

The cost of the improvements, as estimated by City Engineer Turner, was \$28,164.41.

PARDEE WILL WIN
BY BIG MAJORITY.

Charles Spear Says He Will
Carry the State by at Least
Twenty Thousand.

SAN FRANCISCO, Oct. 23.—If the news received from the interior by the officers of the Republican State Central Committee is correct, Pardee is certain to be elected Governor by a majority that will approach 20,000. Charles Spear, chairman of the campaign committee, was in fine feather today.

"I am smiling," he said "at the cheerful news that is flowing in by every mail. This morning I received a letter from Humboldt county which stated that the Republican party will this year carry the northern end of the State by an increased majority. Shasta, which has always gone Democratic, is shaping our way and promises to give the Republican State ticket a small majority.

LABORING MEN ARE FOR PARDEE.

"In the northern counties the miners and laboring men are for Pardee almost to a unit. They claim that the prosperous condition of affairs is due to the national Republican administration, and they intend to do what they can to keep up the good work by voting for Republican candidates at the approaching election.

"I have here a letter which I received from Sacramento this morning. As you see, it says that three members of the Typographical Union who are employed in the composing room of the Record-Union and who are Democrats in politics intend this year to throw their support to Pardee. They say this is no time to stick to a party which has nothing in the way of past record or future prospects to guarantee that it will maintain the present season of prosperity, if put into power by a vote of the people.

LANE WAS FRIGHTENED.

"A week ago Frank K. Lane intended to tour the northern part of the State. He was about to start on his trip for the northern line when he received a dispatch from Los Angeles which caused him to change his programme and to hasten toward San Diego.

The yellow-winged messenger informed him that Democrats were becoming dissatisfied in the citrus belt and that the Union Labor men were up in arms against him. Nothing would do but that he should take another trip over the ground he had already covered. That is the reason that he was heard the other night at Riverside.

SOME STRAW BALLOTS.

"Straw ballots are indicative of the state of feeling with the people. A few days ago the Foresters held a session and a number of a strike being declared."

ANOTHER VIEW.

The attitude of the Brotherhood of Railway Employees, of which George Batey is the president, is defined by one of the local heads in the following interview:

"We have been working steadily for the last two years to strengthen our organization, not with the view of precipitating a strike, but with the view of obtaining increased wages. We are formulating our demands and will present them in all probability within a few days. We have filed a petition with the company two months ago. Owing to it having been somewhat irregular, no report was made upon it. We have formulated another petition, which generally speaking, asks for an increase of twenty per cent and other minor concessions as to hours and work and pay for holidays. We are nearly 20,000 strong on the Southern Pacific lines and on the other roads the organization is equally strong.

"Our whole purpose is to share in the general prosperity of the railroads. Aside from the demands we have made, the boiler-makers and shopmen will ask, as separate organizations, for increased pay.

NO SYMPATHETIC STRIKE.

"I do not believe there will be a sympathetic strike to hold the striking boiler-makers and machinists of the Union Pacific out. The demands which will be made will help them more than if we struck. We do not consider our organization quite strong enough to cope with the united railroads. While in twenty-four hours we could effect a complete tie-up, it is not probable that any such thing will result, unless some particularly aggravated condition arises."

THEY PROVIDE FOR A
MILITARY EVACUATION

PARIS, Oct. 23.—From authoritative sources the correspondent of the Associated Press has learned that France, Great Britain and Germany have concluded an agreement providing for the military evacuation of Shanghai by their forces. The negotiations have also brought about an important extension of the open door policy as urged by Secretary Hay. The agreement affects not only Shanghai, but the entire Yang Tse Kiang valley, which the powers are seeking to develop for commercial purposes. The date of the evacuation is still open, but a leading official of the Foreign Office expressed the belief that it will undoubtedly be accomplished by January 1. About 1,200 troops will participate in the evacuation.

STANFORD PROTESTS
AGAINST BERKELEY.

Red Men Are Trying to Knockout Some
of the Best Players on the State
University Team.

BERKELEY, Oct. 23.—Prof. George C. Edwards of the Faculty Athletic Committee has heard from Prof. Frank Angell of Stanford University in regard to the list of football players submitted by the Berkeley men as being eligible to play in the intercollegiate game with Stanford on November 8.

The Stanford representative has protested against Warren Smith, California's famous half-back, and W. S. Johnston, the freshman player.

The charge against Smith is that of professionalism. Smith coached the University of Oregon team last fall, for which he received \$400 for expenses. This amount being received for expenses does not make Smith a professional. But the Stanford players claim that it was not for expenses, but that it was received as a salary. It is on this ground that they have protested Berkeley's bucking ball.

Earlier in the season Smith appeared before the Pacific Athletic Association and presented affidavits to show that he received no salary for coaching the Oregon team. His case was thoroughly investigated at that time and he was completely vindicated and given full amateur standing.

Stanford claims that the intercollegiate game is not governed by the Pacific Athletic Association and that the Cardinal has a right to protest the Blue and Gold player.

Warren Smith is one of the strongest men on the California varsity and his removal will materially effect the score on November 8. Berkeley will insist that he be allowed to play. The matter will be referred to the University Club, which is composed of alumni

of the universities of America.

W. S. Johnston was kept out of the freshmen game on the same charge that has been brought against him now. It is claimed that he played on the team of the Colorado School of Mines last year and is therefore debarred on the "one-year" clause of the intercollegiate agreement.

Berkeley has gone through the list of Stanford players and will probably enter no protests.

In speaking of the protest against Smith, Col. Edwards said: "Smith has been declared an amateur by the Pacific Athletic Association and therefore has a perfect right to play against Stanford. If the association, after investigating his case, declared him such

strong drink, and the wife says she was eventually forced to sue him for a divorce on the ground of intemperance. It was stated at the time that the suit was brought more to reform him than for the wife's freedom. The case was evidently successful, for Murphy quit drinking, and when the wife became convinced that he would keep his promise a reconciliation was effected by Attorneys Miller and Tom M. Bradley.

The Murphys live in Alameda and the husband conducts a commission business in San Francisco.

BROUGHT AN ACTION TO
REFORM HER HUSBAND.

The divorce suit brought by Mrs. B. F. Murphy against J. E. Murphy, the well-known commission merchant of San Francisco, was dismissed this morning by Judge Ogden at the request of the wife's attorney, Bernard P. Miller, who stated that Murphy had kept his promise to quit drinking intoxicating liquors.

According to Miller, Murphy has not taken a drink for ten months.

The Murphys were married in 1885 and have two children. At first they were happy, but the husband finally took to

REPUBLICAN HOSTS WILL
GATHER IN THE TABERNACLE.

THE GREAT DEMONSTRATION WILL BE FOR
ROOSEVELT, PARDEE AND METCALF—
JOHN A. BRITTON WILL PRESIDE.

The big Republican meeting at the tabernacle Saturday night, will be a State demonstration. It will be a grand rally to boom the State ticket, and the sentiment it will breathe will be one of general endorsement of the Republican party and its policies.

Its inspiration will be Roosevelt and the principles he represents and the idea will be to strengthen his hands for further usefulness and for the better organization of the Republican party.

For that reason local questions and local candidates will be left in the background, that the party may in a larger sense testify to the great principles of Republicanism and the standard-bearers who represent them.

Therefore, the watchword will be Roosevelt, Pardee and Metcalf.

It has been necessary to make some changes in the list of speakers, owing to a previous engagement of George A. Knight.

The speakers of the evening will be Hon. John F. Davis of Amador, E. Myron Wolfe of San Francisco and Superior Judge Henry A. Melvin. All three are eloquent talkers and will have something of interest to say.

All the local clubs and Republican organizations will participate in the demonstration, which will be the event of the campaign in this city.

The chairman of the evening will be John A. Britton, who is a member of the State Executive Committee.

The display of fireworks will be by far the finest seen in Oakland during this campaign. Leading Republicans from all over the county will be present to testify to their loyalty to Roosevelt, Pardee and Metcalf.

MEN IMPRISONED
BY AN EXPLOSION

SHAMOKIN, Pa., Oct. 23.—In re-opening the Alaska shaft owned by the Philadelphia and Reading Coal and Iron Company this morning, an explosion of gas occurred as Robert Mowen and Aaron Drex walked into No. 1 slope. They were blown about twenty feet and were badly burned about the face and head. The gas extended deeper into the mine, and while a rescuing party removed the two victims another body of men began working their way into the strata, where five men are thought to be imprisoned. Up to 10 o'clock the breaths had not been reached.

STAND TOGETHER REPUBLICANS.

The cause of stable, responsible local government will be served by electing the Republican ticket. No serious objections to it have been urged by anybody.

The Republican nominees are all capable and representative citizens, well known in the community and of tried experience. It is not claimed in any quarter that they are unfit or incompetent, or that they are not Republicans of undoubted reputation, and established reputation. Most of them have previously held public office and have shown themselves to be worthy of trust.

Take, for instance, the nominees for Superior Judges. In judicial experience, legal learning and public standing Judges Hall, Greene and Melvin are not inferior to anybody. They would ornament the bench anywhere.

John P. Cook for County Clerk, J. Cal. Ewing for Auditor, Oscar Rogers for Sheriff, James B. Barber for Tax Collector and John Mitchell for Assessor are every one of them good citizens, good officers and good Republicans. There is no earthly reason why any Republican should vote against a single one of them. Personally and politically they are unexceptionable.

It is the duty of Republicans to vote the county ticket just as much as it is their duty to vote the State ticket. No sound reason can be given to justify loyal party men in bolting their nominees, but in the case of the Republican county candidates no valid personal reason can be given for not supporting them. Republicans should stand together and elect them all.

MINERS SHOW WISDOM.

The coal miners have shown rare wisdom in deciding to return to work pending the settlement of their grievances by the arbitration commission appointed by the President. By doing so they manifested their own good faith and exhibited their confidence in the commission. Had they determined to await the outcome of the arbitration they would have prolonged the distress occasioned by the failure of the coal supply and would have aggravated a situation that had well-nigh become intolerable. This attitude would also have implied a doubt as to what their ultimate course would be.

But all fears of a failure to secure an adjustment have been dissipated. Business will resume its activity in normal channels, and the embargo on the coal supply will be raised. Whatever the verdict of the Arbitration Commission, work in the coal mines will go on as before.

The meaning of this is that the miners intend to accept the decision of the commission in good faith. No doubt the operators will do the same, for they are not likely to tempt public wrath so soon after seeing the tremendous manifestation of it that we have lately witnessed.

The relief from the extraordinary tension of the past five months is great, and will cause all classes of society to breathe easier. Probably the most gratifying feature of the outcome is the relief it brings to the poor of the great Eastern cities, who were being reduced to a state of desperation by inability to procure fuel.

CALIFORNIA'S BALANCE SHEET.

State Controller Edward P. Colgan has issued a tabulated statement showing the amount of assessed property, duly classified, in the several counties of the State after the rolls have been corrected and equalized by the State Board of Equalization. The total valuation of the State for assessment purposes is \$1,249,750,455, classified as follows:

Real estate, \$690,974,782.
Improvements thereon, \$284,226,533.
Personal property, \$200,164,271.
Money and solvent credits, \$50,572,275.
Railroads, \$44,812,692.
Mortgages, \$145,231,644.
The University and other State mortgages exempt from taxation amount to \$1,424,513.

The fifty-seven counties of the State have a total indebtedness of \$3,175,942.75, of which \$3,085,900 is bonded and the remainder floating. Practically the State has no debt.

The showing is a decidedly healthy one, and the good showing is emphasized by the fact that church property is now exempted from taxation, and is therefore not included in the assessed valuation.

San Francisco holds first place in property values, being assessed for \$420,355,341. Los Angeles comes next with a valuation of \$118,356,524, while Alameda is third with a total valuation of \$92,193,782.

Four of the Republicans nominated for Congress in Massachusetts have declared for taking the duty off coal, iron, wool and hides and for reciprocity with Cuba. So far as protection to American industry is concerned, Democrats might as well have been nominated as these men. However, the adoption of the pernicious doctrine of free trade by New England Republicans only makes it more imperative necessary for Californians to place none but staunch protectionists on guard. Every man who desires the industrial welfare of this State should vote for Republicans for Congress and for Republicans who will vote in the Legislature to elect a protectionist to the Senate.

OUR CHANGING POPULATION.

Nearly five times as many Jews as Irish came to America during the fiscal year ending June 30th, 1902, and the Italian immigrants numbered more than six times as many as those from Ireland. Last year only a little more than 29,000 Irish immigrants came to America, while the Jews numbered nearly 130,000. They came mostly from Russia, Austria and Roumania, but there were some of the children of Israel among the immigrants from all the European countries except Ireland and Scotland. In these two countries and Greece there are practically no Jews.

The significant thing about the immigration now coming to the United States is that the great bulk of it comes from Italy and Southeastern Europe. A considerable number comes from Syria and Turkey. We got 9,000 last year from Japan. More came from the Russian Empire alone than from England, Ireland, and Scotland combined. Immigration from the Scandinavian states is declining while that from the Slavonian states of the Austrian Empire is increasing. One of the best of the new streams of immigration comes from Finland. The Finns have begun to leave their country in great numbers because the Czar's government persists in trying to force the Russian language, laws and customs on them. Nearly all of them are coming to the United States and Canada. As has been the case with Ireland the population has begun to decline under the influence of bad laws and misgovernment.

But the enormous influx of Poles, Hungarians, Slavonians and Italians must have a decided effect on our national character. It tends to make the people of this country more polyglot and less typical of the north of Europe. At one time the American people represented mainly the descendants of English, Irish, Scotch and Germans, but this complexion is undergoing a rapid change. We are getting the bulk of our immigrants now from countries peculiarly alien to us, not alone in customs and speech, but also in origin, political institutions and aspirations. The people now coming to these shores are ethnological strangers to the descendants of the northern races who first peopled America. From time immemorial they have been accustomed to despotic forms of government, and successive dynasties of tyrants have left scarcely the impulse of liberty in their hearts.

LANE'S UNDEFINED POLICY.

Candidate Lane continues to assert that he is making his campaign for Governor on State issues. He ignores national policies entirely, save his eulogy of President Roosevelt, which is in effect an endorsement of the Republican administration.

But what State issues does Mr. Lane discuss? The reader of his speeches will search in vain for any definite declaration of executive policy. His talk about irrigation is academic, sophomoric and indefinite. It relates to matters wholly within the legislative branch of the State government. He can do nothing with respect to irrigation save to sign or veto laws enacted by the Legislature. As an executive, he can do nothing further with respect to settling the irrigation problem.

In his messages to the Legislature, however, the Governor may recommend the passage of measures dealing with the question of irrigation. Now, what measure does Mr. Lane propose to recommend? Has anybody heard him suggest anything beyond expressing a platitudinous desire to see the waters applied to the waste places that they may be made productive and beautiful?

Every citizen in the State feels the same desire, but we have not heard of anyone, save Mr. Lane, asking to be made Governor on the strength of feeling this universal desire. Everybody favors irrigation but the question is, How shall we go about securing a general plan of irrigation? On this point Mr. Lane gives us no enlightenment. The public is left entirely in the dark as to how the object should be secured.

Dr. Pardee is equally as favorable to irrigation as Mr. Lane, but he does not make a special merit of it because he is well aware that he is simply in accord with the sentiment of all parties on the subject. Besides giving a lip endorsement of President Roosevelt, he is in thorough accord with his policies, and will co-operate in carrying them out. His candidacy strengthens the protection now afforded the industries of California, while Mr. Lane's is calculated to weaken it, not to destroy that protection. It is not a question of individuals, it is a question of public policy, far-reaching and momentous in its consequences.

The registration in all the large Eastern cities is light, particularly so in New York, Chicago and Baltimore. Politicians are now figuring out who is going to be hurt.

PERSONAL AND SOCIAL NOTES.

QUIET WEDDING AT TRINITY
EPISCOPAL CHURCH YES-
TERDAY AFTERNOON.

Miss Daisy Robbins and Horace H. Watson were married at Trinity Episcopal Church yesterday in the presence of relatives and a few friends. It was intended to have the wedding a quiet affair.

The church was decorated with pink and white cosmos being used on the altar and in the chancel, together with white chrysanthemums. The bride wore a white tulle suit of blue cloth with white trimmings, her hat was of white felt and she carried a bouquet of white carnations. The only attendant was Mrs. William Milwahn, who wore a street gown and carried violets. The best man was Archibald Borland. The ceremony was performed by Rev. Martin W. Ray of St. John's Episcopal Church, and Rev. John Bakewell, Rev. Ray reading the betrothal service and Dr. Bakewell performing the marriage service.

Following the ceremony there was an impromptu greeting in the guild room of the church, the whole affair being planned entirely without formality. Later the young people left for San Francisco to leave this afternoon for their honeymoon trip, the destination being kept a secret. Mr. and Mrs. Watson will take up their residence at Sonoma, where Mr. Watson has mining interests, and they will probably not return to Oakland until after the holidays.

The Cup and Saucer Club had an enjoyable meeting yesterday afternoon at the residence of Mrs. Willard Forsythe-Williamson on Eighth street. A pleasant hour was passed at five-hand euchre and the prizes, two beautiful cups, were won by Mrs. Lucie Mar Hayes for the members and Mrs. Hugh McCall Webster for the substitutes.

GUEST OF HONOR.
Miss Mary McClure, daughter of Captain and Mrs. William McClure of Berkeley, was the guest of honor Saturday afternoon at a card party given by Miss Douglas Whitehead at her home, Thirty-third street and Telegraph avenue. The affair was in the nature of a farewell, being the last of a series in honor of this popular bride.

PERSONAL AND SOCIAL.
Mrs. D. R. Rae will be at home to her friends at the Metropole on the second and fourth Mondays.

until illness came upon me three years ago. I first noticed it by being irregular and having very painful and scanty menstruation; gradually my general health failed; I could not enjoy my meals; I became languid and nervous, with gripping pains frequently in the groin.

"I advised with our family physician who prescribed without any improvement. One day I read—'Try Lydia Pinkham's Remedies.' I did, thank God; the next month I was better, and it gradually built me up until in four months I was cured. This is nearly a year ago and I have not had a pain or ache since."—ROSENE DELANO, 3343 Indiana Ave., Chicago, Ill.—\$5000 forfeit if above testimonial is not genuine.

TOM WILLIAMS TELLS ABOUT RACING SEASON.

PROMINENT JOCKEYS AND WELL KNOWN HORSES WILL COME TO THE COAST

—BASEBALL NEWS.

Thomas H. Williams arrived in New York on the 17th instant, and was interviewed at the Waldorf-Astoria on racing in California.
"The racing season which will open at Ingleside on Saturday, November 5, promises to be the most successful ever held in California. We have assurances that there will be more high class jockeys and horses on hand than ever before," he said.
"While in Chicago I was informed that a number of owners would ship to the coast for the first time, and the same is true regarding New York and St. Louis. I have been informed that several prominent stables that have been racing on the metropolitan tracks will go out.
"Racing will continue at Ingleside for forty days, the full period of which we are permitted to conduct a meeting there. When Ingleside closes the scene will be transferred to Oakland, and later we will do some racing at Tanforan. The season will continue for 100 days. All the stakes are added money affairs, with the exception of the Burns Handicap, which has a guaranteed value of \$100,000. Entries will close on Monday, the 27th inst.

"In addition there will be overnight handicaps and special races with from \$500 to \$1000. There will be no purse of less than \$500.
"Edward C. Hooper will be presiding judge, and will also officiate as handicapper. Judge Pettigill will be presiding steward and be associated with Judge Hooper in the stand. Jake Holman and Dick Dwyer will alternate as starters. The Oakland track has been greatly improved by the placing on it of a large amount of loam. Ingleside track is in fine shape, and already a large number of horses are quarantined there. Some owners, including Barney Schreiber, have shipped to the coast.

The management will do everything possible to make the meeting high class, and visitors may be assured of witnessing excellent sport.
According to stories told by California jockeys, racing will be carried on for fifty days at Oakland after the close of the season at Ingleside. Change will then be made to Tanforan, when the sport will conclude with a thirty days' season in San Mateo county.

LOCAL GAME CALLED ON ACCOUNT OF RAIN

CONTEST BETWEEN PONIES AND LOS ANGELES STOPPED BY THE DARKNESS.

With Sacramento in the lead, the game scheduled to take place at Golden Gate yesterday afternoon was stopped during the first half of the second inning on account of the heavy rain. When time was called the Law Makers had three men on bases and two outs. They had scored once in the first inning, while Oakland had failed to send a man across the plate.

Judging by the way the contest commenced the rain saved the locals a loss, as Cooper, who was in the box for them, was being hit with frequency that was alarming, while Cutler, the opposing pitcher, had no difficulty in keeping the hits down.

Oakland went into the game in a crippled condition. Dunleavy, Streib and Gorton are all out of the lineup, and Lehman is out of the sick ward and played his last game yesterday.

MANY SMALL FIRES.

Crossed wires caused the telephone box in the office of the Hutchinson-Ransome building to burn out about 6 o'clock last night. Damage about \$10.

Shortly after 10 o'clock last night a defective fuse in the residence of J. H. Roes, 510 Eleventh street, caused a blaze in the kitchen. The fire department was called and after extinguishing the fire before much damage had been done.

A still alarm was turned in shortly after 2 o'clock this morning by a resident in the vicinity of Thirteenth avenue and Nineteenth street. When the fire department arrived all that could be found was the smouldering remains of a house and it is supposed that some one happened to look out of the window, noticed the smouldering embers and drew the conclusion that a building was ablaze.

SENATOR HANNA IN INDIANA.

HE DENOUNCES TOM JOHNSON'S FREE TRADE AND SINGLE TAX.

EVANSVILLE, Ind., Oct. 23.—Senator Hanna began his tour of Indiana today. He appeared in good health with the exception of his ever present rheumatism. Beautiful weather greeted him as he crossed over from Kentucky into the Hoosier State.

The Senator spoke in the open air at Willard Market, where he was greeted by 10,000 people.
In the allotted twenty minutes he spoke on the prosperous condition of the country, the issues of the Democratic party which, he declared, were nothing and of the coming union of capital and labor as the great factors in the advancement of the country.

He denounced Tom L. Johnson's free trade and single tax platform in Ohio, and concluded his remarks by urging Congress to uphold President Roosevelt in what he has attempted for the welfare of the country. He was cheered vociferously at the end of the address.

MYSTERIOUS FIRE PUZZLES DEPARTMENT

INTERIOR OF HOME GOES UP IN FLAMES EARLY THIS MORNING.

A fire was discovered shortly after six o'clock this morning in a cottage at 265 Ninth street. Before the Fire Department could subdue the flames, the building was entirely gutted. The property is owned by Mrs. Murray, who had rented the building up to noon today the Fire Warden has been unable to locate the woman, or her grown son who lives with her. The cause of the fire is a mystery.

The fire was discovered by some laborers on their way to work and they immediately turned in an alarm. When first discovered, the fire had reached great headway and when the Fire Department arrived upon the scene the whole interior of the building was a mass of flames. Streams of fire were directed on the blaze, but seemed to have no effect and it was only when the interior of the building had burned out that the department was withdrawn.

At first it was thought that Mrs. Murray and her son had perished in the flames, but it was later learned that they were still alive. The Fire Warden is now trying to find the woman who usually sleeps in the house and try to ascertain the cause of the fire. The neighbors are not informed where the woman may be. As yet it is not known whether the house was insured or not.

SECRETARY OF STATE CURRY SAYS DR. PARDEE WILL WIN

LANDSLIDE ALL OVER THE STATE IN FAVOR OF THE REPUBLICAN NOMINEE FOR GOVERNOR.

Secretary of State Charles F. Curry and Republican nominee for re-election, spent a part of yesterday and last night in Oakland. He was introduced about town in the afternoon by Senator Leavitt and other friends, and was entertained at the Athenian Club by Ray T. Baker.

In the evening he attended two Republican meetings accompanied by John P. Cook, Republican candidate for County Clerk, at both of which he delivered short addresses. This morning he departed for Los Angeles, where he will remain till election day. Mr. Curry is confident Dr. Pardee will win by a large majority.

"Dr. Pardee is sure of election," he said last night. "I have just returned from a trip through the Northern counties, and I now say that George C. Pardee will be our next Governor."

"During the past two weeks there has been a general slide toward him in every part of the State, and his strength is growing daily. I shall not attempt to estimate his majority, but it will be a very large one."

Mr. Curry has many friends in Oakland and was warmly greeted wherever he went.
"Not One Mouthful of table food should be given a child before it is one year old," says Dr. Holt. What substitute then? Borden's Eagle Brand Condensed Milk is absolutely the safest and best infant food obtainable. Avoid all unknown brands. Send for "Baby's Diary."
